

## CAN YOU IDENTIFY THIS PICTURE?

The first residents to identify the picture in the spring 1999 Greene Informer were Reuel Berringer, Anna Meals, and Gerald Peters. Later resident George Boyer stopped by the office and noted that he had had a store on the property from approximately 1947 to 1956. He also stated that Abie Kurtz was the Postmaster for many years. The property is located along Scotland Main Street. We thank all those persons who participated.

We remind you that we welcome any Township resident who has an old photo of a special or landmark place in Greene Township to bring the photo to the Township Office for a future issue of the "Greene Informer". The picture will be returned to you.

Volume 3, Issue 2

Summer 1999

## COMPOSTING FACILITY IS CLOSED FOR THE SUMMER

The compost facility is now closed for the summer. The facility will re-open in the fall. Construction will soon begin on a building at the facility. This building will be for equipment and will house a small office. The facility will be paved hopefully when we re-open in the fall. A new grant application has been submitted by the Township for additional equipment to perform various chores at the facility. Please watch the fall issue of the *Informer* for dates and times the facility will be open. The Greene Township Board of Supervisors would like to thank the Township residents for their support of the facility. Hopefully next spring we will have compost to offer the Township residents. If you have any questions about the facility, please call the Township at 263-9160.

The Greene Township Board of Supervisors would like to ask that Township residents refrain from dumping their materials while the facility is closed. Only dump your materials when a Township employee is there to receive your material. Illegal dumping will not be tolerated! *Also grass clippings can not be accepted at this facility.*

## INSIDE THIS ISSUE

- 1 Composting Facility, Road Paving
- 2 Bridge Opening, Bulk Collection
- 3 R&A Bender New Owners
- 4 Can You Identify This Picture?

## SUMMER PAVING PROJECTS

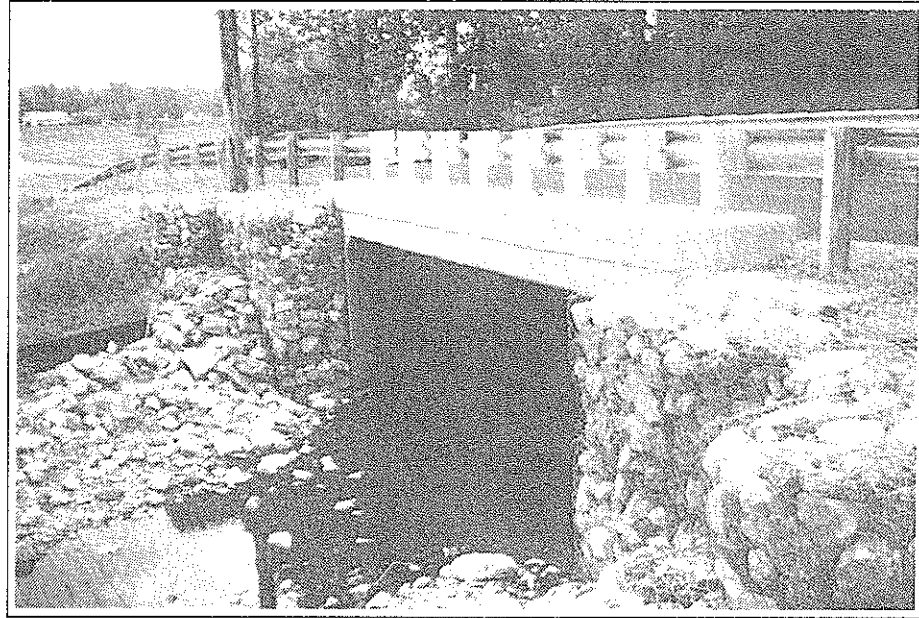

The Greene Township Board of Supervisors would like to advise its residents of the following road improvements that are scheduled for the summer of 1999. Construction has already begun on Funk Road. The road will be widened and repaved. The intersection of Salem Road and Rt. 11 is scheduled for repaving. The compost facility lot will be paved. Kohler Road is being prepared for repaving.

Please be prepared for delays during construction in these areas and you may want to seek alternative routes. The Board of Supervisors regrets any inconvenience during the construction. Please be alert for road crews and construction vehicles.

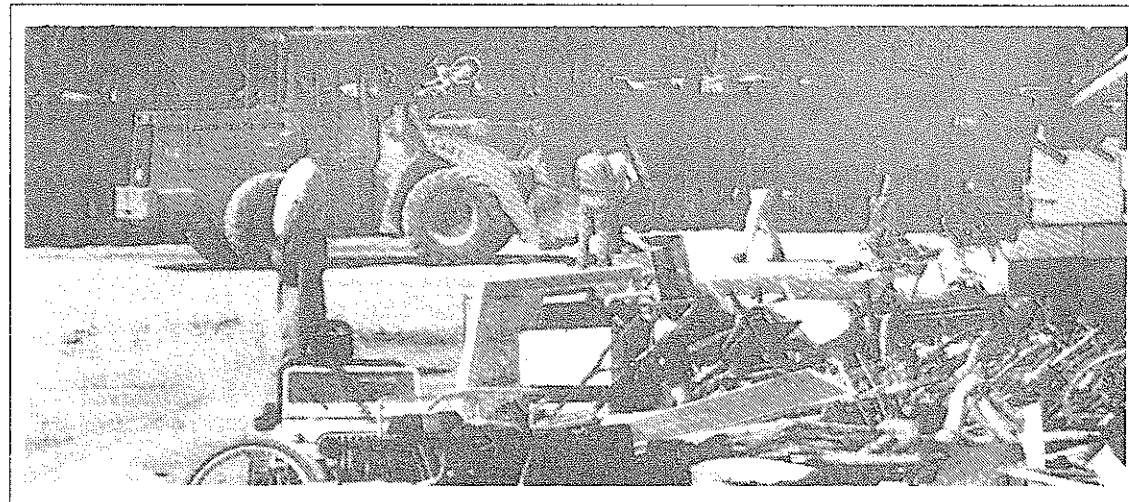

## NEWSLETTER INFORMATION

Duplicate mailings? Not receiving the Informer? Please contact the Township Office at 263-4990 if you are receiving duplicate mailings or know of someone who is not receiving the Informer. We will be glad to make the correction and/or add residents' names to the mailing list. Thank you!

Above is a picture of the bridge that has been completed on Brindle Road. The Board of Supervisors would like to thank the residents for their patience during this project. As you can see this was a big improvement.

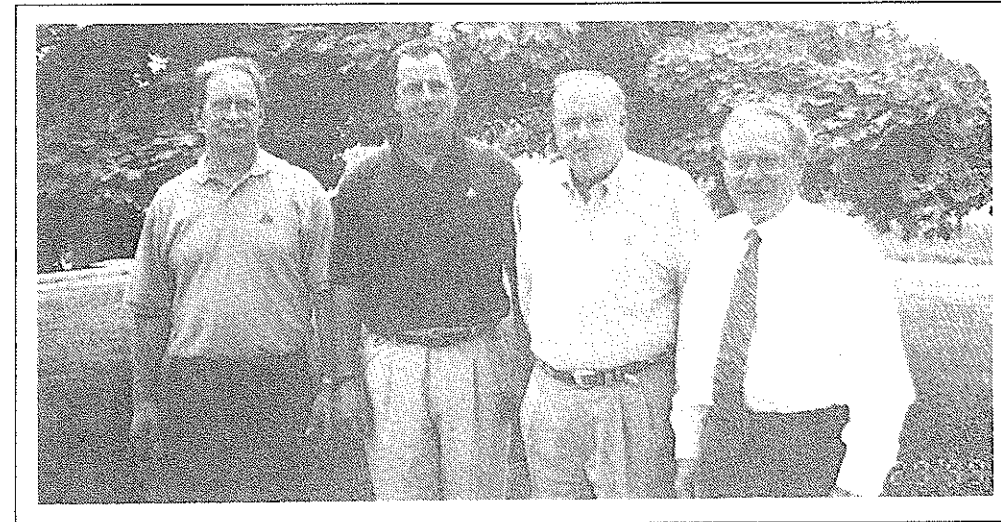

Another successful bulk collection day for residents occurred on April 24, 1999. The dumpsters were filled to overflowing once again as Greene Township residents threw away their bulk items. There were 468 vehicles that came to the Township property on Garver Lane in Scotland to discard various items. There were over 90 tons of bulk items discarded. 32 tons of metal waste went to Conservit of Hagerstown and over 60 tons was disposed of in the R & A Bender Landfill.

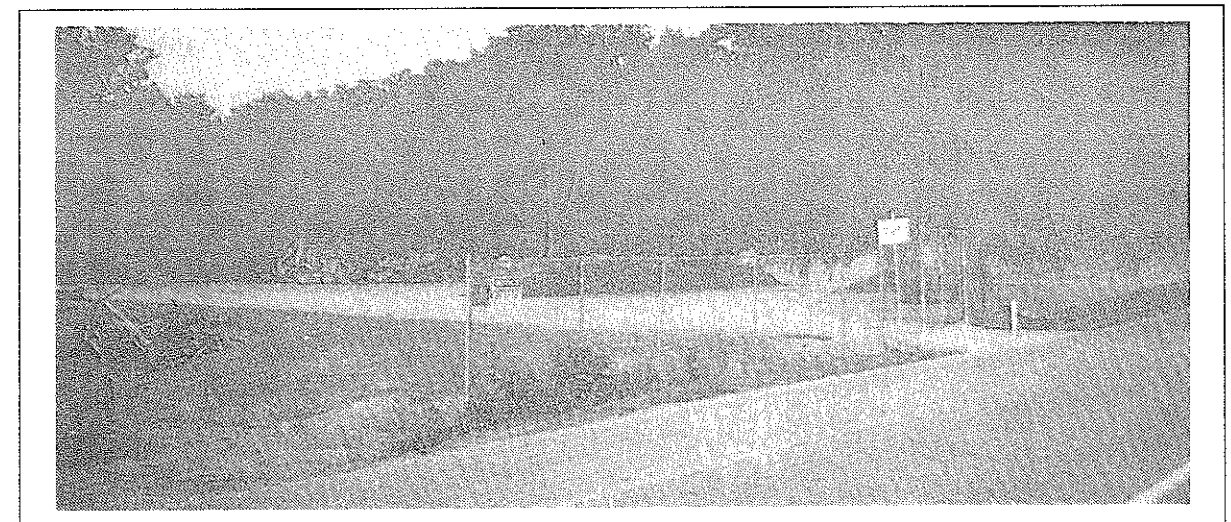

### **FALL BULK COLLECTION DAY**

**OCTOBER 23, 1999 AT THE TOWNSHIP MUNICIPAL BUILDING  
FROM 6:00 AM to 4:00 PM**

### **LANDFILL GETS NEW OWNERS**

R&A Bender's landfill has been sold to IESI which is a Texas based firm. The above picture shows the new owners from left to right: Paul Yelinek General Manager, Kevin Finn, Regional V.P., Mickey Flood, President & CEO, and Vito Galante, Engineering Consultant. R & A Bender has had several different owners in the past two years. IESI plans to be a long term owner of this landfill and to be active in the community.

The Compost Facility pictured above is located on Mickey Inn Road between Scotland Main Street and Sycamore Grove Road. The facility is currently in operation accepting leaves, branches, and rubbish. The facility is not permitted by the Department of Environmental Protection to accept grass clippings. This facility will be paved this summer and a building will be added in the near future. A grant from the Department of Environmental Protection covered most of the cost for this facility. Greene Township is the only Township in Franklin County to operate a composting facility for its residents. The Board of Supervisors is happy to offer this service to the community. Any questions about composting or our facility, please call the Township.
